

Create Seamless Standardization Across Your Enterprise

Inefficiency impedes progress, especially in today's get-it-done-fast world. Now there's Efficiency Manager from Fiserv, a content-enabled process automation application that digitally transforms your enterprise from the back office to the consumer experience.

Greater Efficiency and Standardization With Repeatable Automation

68% decrease in loan processing times

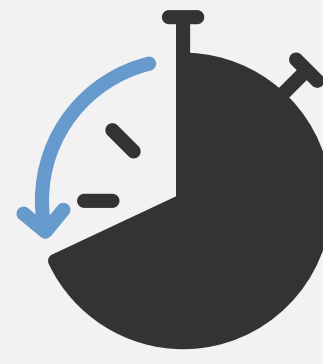

30% gain in overall efficiency

Improved Productivity and Compliance With Fewer Workflows

50% reduction in audit times and simplified compliance

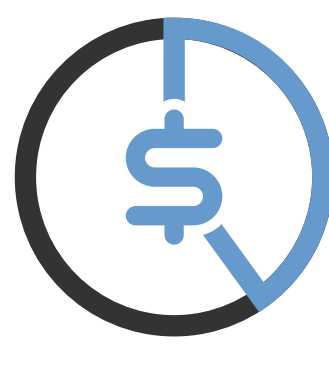

30% faster onboarding of new commercial clients

Reduced Cost and Risk With Continuous Process Improvement

60% reduction in costs for accounts payable processing

40% reduction in costs for dispute processing

Efficiency Manager is designed to streamline processes in specific departments across your enterprise, making the entire organization more agile, productive and effective.

Statistics are based on analysis of user experiences.
