

Configure Digital for Virtual Branch[®] Next

Elevate your members'
digital experience

What do your members expect from you? Financial services that fit with the way they live and work. With Configure Digital for Virtual Branch Next from Fiserv, you can provide an unmatched, personalized digital experience through any device at any time in an always-on, always-connected digital world.

People today are busy, distracted and in search of solutions that will make their lives easier. When it comes to financial services, your members look to you to provide an intuitive experience designed for the way they want to move and manage money.

At the same time, you need digital solutions that help you achieve growth, deepen member engagement and advance the way you go to market – no matter which channel your members choose.

With Configure Digital for Virtual Branch Next you get both.

Configure Digital for Virtual Branch Next is a feature-rich digital banking platform that elevates the member experience. With an integrated digital ecosystem, your members can easily navigate an elegant, intuitive interface that brings all of their financial services together in one place.

Modern, responsive design

Configure Digital for Virtual Branch Next provides members with a clean, contemporary and intuitive landing page featuring one-click access to all accounts, recent transactions, upcoming scheduled transfers, bills and even their current credit score.

The user interface employs Fiserv design policies for accessibility, ensuring a consistent look and feel across all the Fiserv products your members interact with when they visit your site or app.

Quick and easy bill payments

Members can quickly view upcoming bills and scheduled payments through digital channels.

Smart money management tools

Personal financial management tools from Fiserv provide account aggregation and insights to help your members get a comprehensive view of their finances. Right from their digital banking platform, members can access information to help them set goals and make smart financial decisions.

Credit score monitoring

A member's credit score is another vital piece of information that can help them make financial decisions. Configure Digital for Virtual Branch Next gives members instant access to their current credit score from their online banking or mobile app homepage. They receive tips on how to improve their scores, and your credit union can promote money-saving products and services unique to your institution.

Person-to-person payments

Zelle® is one of the most popular person-to-person payment options on the market, and Configure Digital for Virtual Branch Next is configured to make it easy for your credit union to incorporate Zelle® into your digital banking platform.

Ready for future growth

The intuitive design and smart architecture of Configure Digital for Virtual Branch Next makes integrating new products smooth and efficient. As new technologies emerge, Configure Digital for Virtual Branch Next will help you keep pace so you can provide an elegant, excellent member experience.

Key benefits
