

Digital Payouts and Disbursements

Digitize the payout process with speed and security

Digital Payouts and Disbursements from Fiserv makes it easy to instantly deliver fast and secure payments to customers how and when they want. With built-in security, this comprehensive solution offers single integration and near real-time funding to help increase payout choice and speed.

Facilitate faster payouts with Fiserv. Fiserv has the size, scale and expertise to help securely deploy payouts and create better customer experiences. With a single integration and support for split or mass payouts, our platform reduces costs and simplifies operations. Advanced data analysis and fraud detection ensure seamless verification and payment to legitimate recipients.

Payouts built for businesses

- ClientLine portal from Fiserv for settlement, reconciliation and reporting
- Customizable programs and tailored communications
